

### Proposed Budget Report - Fiscal Year 2020

### **Budget Message**

The Southeast Louisiana Flood Protection Authority-West (SLFPA-W) is a political subdivision of the state of Louisiana governed by a seven member board nominated by a blue ribbon committee and appointed by the governor. The Authority serves as a local agent of the Louisiana Coastal Protection and Restoration Authority (CPRA), the local project sponsor for the West Bank and Vicinity (WBV) portion of U.S. Army Corps of Engineers (USACE) area-wide Hurricane Storm Damage Risk Reduction System (HSDRRS). SLFPA-W, through its included levee districts, is responsible for the operation and maintenance of WBV-HSDRRS infrastructure, as well as emergency operations within its territorial jurisdiction. SLFPA-W also maintains the Mississippi River levees and performs daily inspections during high water incidents to monitor seepage or any other potential issues affecting the integrity of the levees.

The West Jefferson Levee District (WJLD) is funded by two millages. The first is a constitutional general millage of 5.03 mills that presently generates approximately \$5.3 million in revenue annually. This millage is used to perform the day-to-day Operation and Maintenance requirements of the flood protection system. A second millage of 4.75 mills was adopted by the voters in April of 2018 for a period of ten years. This millage is expected to generate approximately \$4.8 million per year. Revenue from this millage is dedicated to constructing, raising, armoring and maintaining levees. It will also be used for the Repair, Rehabilitation and Replacement of capital projects for purposes of flood and hurricane protection including the Bayou Segnette Complex, Harvey Sector Gate Complex and the District's share of the West Closure Complex.

The expanded and upgraded WBV flood protection system currently includes the following in West Jefferson:

- 47 miles of FEMA accredited WBV-HSDRRS levees
- 19 miles of Mississippi River levees
- The West Closure Complex, with the largest drainage pump station in the world and the largest sector gate in North America
- The pump and sector gate complex at Bayou Segnette
- The pump and sector gate complex at Harvey Canal

Between the two millages collected in West Jefferson, the SLFPA-W has sufficient funding to periodically raise the system levees in order to keep up with subsidence and sea level rise to maintain FEMA certifications and public safety. WJLD has completed two levee lift projects and is currently progressing work on four more levee lift projects.

Because of FEMA's recent certification of levees and improvements to drainage and pumping, Jefferson Parish approved the new Flood Insurance Rate Maps (FIRM's) in August of 2017 that became effective in February of 2018. The new FIRM's have provided a benefit to over 66,000 properties on the Westbank with substantial flood insurance rate savings in the hundreds of dollars for many home and business owners.

The Algiers Levee District (ALD) generates \$2.8 million in revenue from a constitutional general millage of 5.46 mills, a Levee District Maintenance Millage of 0.75 mills and 6.35 mills for a Special Levee Improvement Tax. The Special Levee Improvement Tax, which currently generates \$1.2 million of the \$2.8 million, was renewed by the voters of Algiers during the November 2015 election for a period of 30 years. The revenue generated is sufficient to operate and maintain the upgraded flood protection system in Algiers, including 14 miles of river levees and 10 miles of Donner Canal levees. This revenue will also be used for Repair, Rehabilitation and Replacement of capital projects for the purpose of flood and hurricane protection including the hardened Mississippi River levees in Lower Coast Algiers and the District's Share of the West Closure Complex. The Algiers Levee District consists of all the riverine and hurricane flood protection assets on the Westbank of Orleans Parish.

<sup>21</sup> 

24 1 - Actual revenues for Fiscal Year 2018 (July 1, 2017 through June 30, 2018)

25 2 - Actual revenues through January 31, 2019

26 3 - Amount projected to receive for the remaining Fiscal Year 2019 (February 1, 2019 through June 30, 2019)

27 4 - Amount of total projected revenues through June 30, 2019

28 5 - Percent change from prior year actual (Column B) to current year estimated total (Column E)

29 6 - Budget adopted at March 28, 2018 Board Meeting for Fiscal Year 2019 (July 1, 2018 through June 30, 2019)

30 7 - Original adopted budget plus amendments and reallocations through January 31, 2019

31 8 - Proposed budget for Fiscal Year 2020 (July 1, 2019 through June 30, 2020)

32 9 - Percent change from current amended budget (Column H) to next fiscal year proposed budget (Column I) 33

34 10- The Ad Valorem revenue includes only the 5.03 constitutional millage for WJLD, the 5.46 constitutional millage for ALD, the .75 levee district maintenance millage for ALD, and the 6.35 special levee improvement tax for ALD. 35 The 4.75 millage for WJLD adopted by the voters in April 2018 can be found on page 24.

- 36 11 Assessor, Sheriff, and Retirement Expenses are deducted directly from ad valorem taxes (WJLD)
- 37 12 Part of the economic incentive for Dyno Nobel was a payment in lieu of tax (pilot) agreement whereby they would forgo an industrial tax exemption (which meant no taxes for 20 years) 38 in exchange for a 20 year pilot which would produce some revenues to the local governments and would extend their tax break to 20 years. The pilot calls for an annual payment of \$1,032,000 each December and for the
- 39 Sheriff to disburse it in a similar manner to an ad valorem tax.

40 13 - Interest income will decrease due to funds being transferred to the Capital Project accounts. Those accounts will earn the revenue.

41 14 - Oil and Gas Royalties have been transferred to Lafitte Independent Levee District. There is still one well in the West Jefferson Levee District jurisdiction but it is not generating any revenue at this time.

42 **15-** Revenue Sharing will increase with additional millage.

26

37 9- In fiscal year 2018 the Authority completed WBV 16.2 and anticipates 100% completion of WBV 14e.2 with WBV 15a.2 at 65% and WBV 18.2 at 20%.

38 10- In fiscal year 2019 the Authority completed the remaining of WBV-15a.2 and WBV-18.2 and 75% of WBV 14b.2 and 14c.2

39 11- In fiscal year 2020 the Authority plans to have WBV 14b.2 and 14c.2 completed. This will complete all 6 levee lift projects.
